

## **ANNUAL Report 2022**

### **Education Committee**

Heidi Kalyani

The highlight of the year for the Education Committee was hosting an online training in October entitled Rethinking Gender: Understanding Gender Diversity, with Halifax-based Nolan Pike.

At the conclusion of the one month access to the pre-recorded training course, Nolan delivered a lively one hour Q&A over Zoom, which both deepened and enriched the learning experience.

Earlier in the year (to help determine the needs of the organization), the membership database was updated to reflect past trainings for each member, and a survey was conducted to gauge need and interest for the 2022 training.

The main challenges going forward will be clarifying needs for our next training (likely in the fall of 2023), and securing funding to make it possible.
