

## **ANNUAL Report 2023**

### **Education Committee**

Heidi Kalyani

The Education Committee has been quiet this year. Wanting to avoid volunteer burnout (in light of the upcoming 30th anniversary celebration, the peer support training, and the group facilitation training), it was decided that we hold off asking for any additional volunteer time for education opportunities until the winter or spring of 2024.

The membership database has been updated to include the group facilitation training received by five peer supporters in 2023.

The main challenges going forward for this committee continue to be identifying need and jurisdiction. What do we need in terms of educational upgrades, and who can most effectively administer those — the Education Committee or the Peer Services Committee? Heading into the new year, I look forward to clarification of the terms of reference for the Education Committee!
